SUMMARY

I have been working as a full stack developer for 8 years now. My main skills are React, Next.js, Node.js, Java and I have gained great experience in software development. I have gained a reputation as a trusted advisor and a valuable asset to any organization due to my ability to identify growth opportunities and tackle complex challenges. I can say that I am a creative, calm, detail-oriented person who loves to learn from others. My hobbies include soccer and occasionally playing computer games with friends. I am actively looking for a new job as a full stack developer and am ready to work for you immediately! Thank you.
